

Clinical Statistician

Location:	Stirling (FK9)
Salary:	£COMPETITIVE
Date posted:	31/3/2016
Job type:	Permanent
Company:	The CLINICAL TRIAL Company™

An exciting opportunity has arisen for an experienced Clinical Statistician to join The CLINICAL TRIAL Company™ Ltd (TCTC), a world-leading full-service clinical research organisation (CRO).

TCTC has offices in the UK, Canada, Australia, Singapore and the USA. We operate throughout Europe, North America, South America, India, China, Africa and Australasia. Our expanding company provides clinical trial services and support to the pharmaceutical and medical device sector.

We are seeking an experienced Clinical Statistician to join The CLINICAL TRIAL Company to support a rapidly growing team. The successful candidate will have the chance to join a highly capable and motivated team involved in the analysis and dissemination of data from a wide variety of randomised controlled trials.

Essential duties and responsibilities include, but are not limited to the following:

- Act as Clinical Statistician for entire through-life of research projects
- Provide statistical input to study proposals, protocols and statistical analysis plans, including:
 - Study design;
 - Sample size & power calculations;
 - Statistical methods.
- Carry out or supervise exploratory data analysis of datasets and baseline analyses
- Carry out complex statistical analyses of study outcomes and assist in the interpretation of results
- Contribute to the final statistical analysis report

Description

The role requires:

- A statistical background, normally as a post-graduate degree in statistics or a closely related discipline, although applicants with a good first degree in statistics and relevant experience may also be considered
- Broad statistical experience within a CRO or pharma company
- Excellent statistical modelling skills and the ability to interpret analysis results
- Sound IT skills and programming experience in SAS
- Experience in planning and analysis of RCTs
- Familiarity with ICH Statistical and reporting guidelines and GCP
- Demonstrated oral, written and interpersonal communication skills in the English language
- Strong attention to detail and excellent time management skills
- The ability to work in a multidisciplinary team
- Full driving licence together with a willingness to travel, where required

Clinical Statistician

This is an exceptional opportunity within a career driven and progressive organisation offering excellent salaries and benefits.

TCTC offers prospective candidates a truly exciting opportunity to join a growing and dynamic organisation, developing your career as the company grows. TCTC's employees are vital to our success and so we are looking for candidates to join the company and to stay and grow with us. In return you will be rewarded with the opportunity to work on clinical trials of real scientific merit and with excellent opportunities for professional and personal development.

KEY WORDS: Statistics; Statistician; Clinical; Trial; Study; SAS; RCTs; Statistical Modelling; Interpretation; Analysis; GCP; Good Clinical Practice
